

Model 1 Series Manual Can Opener

Edlund's new lighter Model 1 Series Can Openers are built tough for long life and reliability. Utilising the patented take-apart design of the famous G-2 openers, these new easy to clean, quick-change can openers will meet the requirements of most foodservice operations.

Recommended for cans up to 280mm tall, and capable of 4 cans/minute throughput. Double-sided knives offer much longer performance, and you will not find a better all-round quality opener.

All Edlund products come with our industry leading 13 month warranty.
