

## 297-SW16 SERIES SLIM-LINE VERTICAL CONTACT TOASTER

Prince Castle's 297-SW16 series Slim Line Bun Toaster now comes with a **SMALLER** footprint!

### PERFECT CARAMELISATION & BUN TEMPERATURE

The 297-SW16 provides all of the reliable features of the original Slim Line Bun Toaster in addition to new and improved features. The new, smaller design (up to 20% smaller) saves valuable countertop space which provides added flexibility in the restaurant.

The 297-SW16 toasters are packaged with a non-stick release sheet, and are delivered with features including the **energy saving air flapper** and **operator heat shield** for even greater efficiency and operator safety.

#### EXCLUSIVE STANDARD FEATURES:

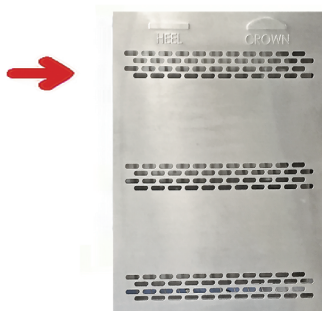

- Compact design saves counter space
- Indicator light for notifying the operator that the toaster is ready to use
- Adjustable platen temperature up to 304°C
- Adjustable bun compression controls
- Two lane platen design for bun crowns and heels
- Capacity of up to 750 buns per hour at 16 seconds toasting time
- Air Flapper prevents heat loss, saves energy and can increase bun temperatures up to 3°C
- Heat Shield provides a barrier between the operator and the outer toaster surface for greater safety
- Australia-wide 13 months on-site Parts & Labour Warranty

## FEATURES

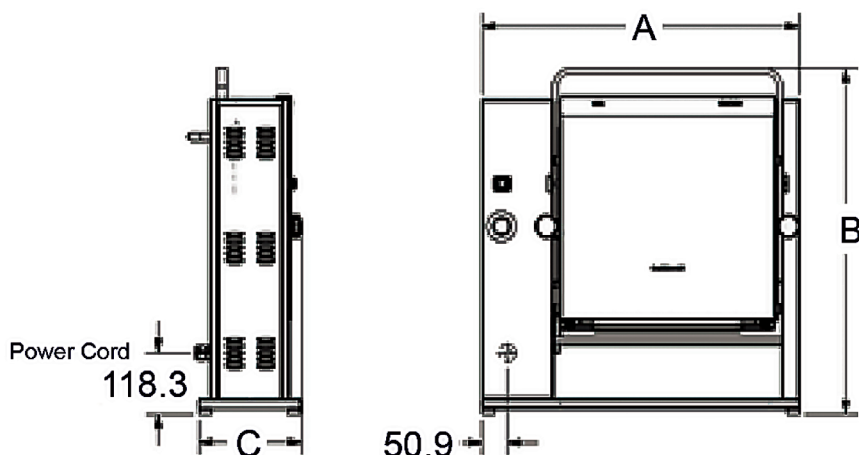

### ENERGY SAVING AIR FLAPPER

Simply snaps on the toaster to prevent heat loss and increase the bun temperature by up to 3°C whilst reducing power consumption.

### FRONT HEAT SHIELD

Protects operators by providing a barrier between the restaurant employee and the outer surface of the toaster.
