

SAF-T-SCOOP & GUARDIAN SYSTEM

SAF-T-SCOOP & GUARDIAN SYSTEM

SI9000

Larger capacity (1893-2543 ml) Saf-T-Scoop / Guardian system for bulk dispensing.

SCOOP AVAILABLE SEPARATELY

SI4550

Banquet/Beverage Saf-T-Scoop

Convenient bar-size scoop for safe ice dispensing.

With Germ Guards[®] to protect ice from coming into contact with hands.

Scoop holds approx 113-170g and the drain holes ensure that beverages aren't watered down, improving customer satisfaction.

SAF-T-SCOOP & GUARDIAN SYSTEM

SI5000

The FIRST Food Safe scoop and guardian system.

With the aid of two 'germ guards', the unique Patent Pending design prevents hand and thumb contact with ice or other foods at your bar or beverage station.

The Guardian saves space and isolates the scoop against cross contamination by mounting inside or outside the ice bin temporarily or permanently.

There is also a removable drainage cup at the base of the Guardian.
