

MINI COMPACTOR SERIES

THE MODERN AND STYLISH COMPACT IMC MINI COMPACTOR SERIES LOOKS GOOD IN ANY COMMERCIAL ESTABLISHMENT. THE MC400CC ALSO INCORPORATES A DYNAMIC CAN CRUSH WHICH COMPRESSES DRINKS CANS AND FOOD TINS TO AS LITTLE AS A SIXTH OF THEIR ORIGINAL SIZE.

The IMC Mini Compactor range has been developed to meet the needs of almost every application, from small hotels and restaurants to schools, hospitals, shops, factories and ships.

By using an IMC Mini Compactor you save on waste collection costs and employee time due to less bin emptying, as well as having no unsightly mess or smells.

Recognising that dealing with waste is an unavoidable nuisance, IMC have spent many hours considering how to help and encourage increase in recycling rate.

The result is our award-winning range of recycling compactors that have been designed to facilitate recycling whilst retaining the convenience of a traditional trash compactor. We have combined the opportunity to pre-sort waste with a compaction mechanism to make best use of available space.

At IMC we understand that as well as helping you recycle, a compactor needs to save you money. Not only do your customers want to see a clean and tidy environment, but you want the bar, kitchen, cafe and so much more, to run smoothly and efficiently. The payback on a compactor is less than 3 months on direct savings and 7 months purely on saved collection charges alone.
