SANITATION & STORAGE

The easy to operate mechanical timer can be set for up to 15 minutes, but the KSUV-18 will safely sterilize your knifes in as little as 3 minutes with 99% efficacy**. It's like a SPF-99 (Sterilization Protection Factor) for your knives.

Are You Buying the Right Commercial Toaster for Your Foodservice Operation?

What makes someone the "toast of the town?' Typically, it's because they're pretty incredible (or toast-worthy). But funny enough, the saying works for toast itself.

There's nothing quite like a slice of hot, buttered toast; the comfort-food meter is off the charts (especially if you add a little cinnamon and sugar). Breakfast isn't complete without a side of crispy toast or a delicious bagel — and a BBQ pork sandwich, BLT or cheeseburger doesn't measure up without a crisped bun. Toasted products are a staple for almost every operation out there.

What to know about pop-up toasters
The benefits of a pop-up toaster:
A pop-up toaster is one of the most common types of toasters, and it's also the least expensive on the market. Operation is simple with a standard dial to determine the preferred shade of toast, and a straightforward on-demand, push-down lever to "start" the unit up. These toasters typically use less energy and have a smaller footprint than other models.

Where a pop-up toaster shines
It's familiar and easy-to-use controls make pop-up toasters perfect for front-of-the-house operations such as continental breakfasts, cafeterias or buffets. These settings (as well as coffee shops, small diners, and other establishments that demand less volume of toasted products) are the perfect candidates for a pop-up toaster. Look for a well-crafted, durable toaster with a removable crumb tray for easy cleanup. And longer, wider slots should be considered for increased versatility to toast items like bagels and hoagie buns. Lastly, if you plan to use a pop-up toaster in a front-of-house capacity, be aware of the aesthetics and choose one that not only functions well but also looks great.
