USE

Blender : Grind, crush, mix, emulsify, homogenize and smooth your preparations in a record time !

The blender homogenizer tool allows to obtain a smooth, creamy and a perfect texture, that doesn't require sieving.

Dynapompe : With its innovative process, the DYNAMIC Pump perfectly adapts to the GIGAMIX blender foot to quickly and effortlessly transfer the mixed preparation into the packaging area.

Capacity : 40 to 150 L.

The GIGAMIX XS, GIGAMIX's «little sister» is designed for medium preparations.

This turbo liquidizer is specially designed for intensive use in production kitchens.

MAINTENANCE

In a few seconds and without dismantling anything, the stainless steel tube and bell can be washed with clear water only. The single-phased electric connection must be done by a professional.

It's preferable to regularly check the wear on bearings, seals and O-ring.
